Richard Trudo
President
SCT Fleet Solutions
976 Florida Central Pkwy
Suite 136
Longwood, FL 32750

Mr. Trudo,

I wanted to personally thank you for your company's help reducing our fleet's fuel and operating costs. When we initially contacted SCT Fleet Solutions, we were more than a little skeptical of your company's claims to be able to "increase" our fleet's fuel economy. After receiving our fuel reports for last month I was in awe. Our Ford diesel pickup trucks equipped with your device showed an average fuel economy increase of 13%, while the trucks we have not yet equipped remained essentially the same as previous months.

The fuel savings exceeded our expectations. However, that was not the only reason for contacting SCT. With your speed and rpm limiters we have also been able to reduce our auto insurance costs. So not only is your solution paying for itself in fuel savings we have gotten the additional benefit of lower insurance costs. I have instructed our fleet manager to issue a purchase order to equip the rest of our fleet with your devices. Once our trucks are equipped we would like to discuss your fuel savings solutions for our fleet of cars used by our sales staff.

Thank-you again for your company's help.

Sincerely,

A handwritten signature in black ink that reads "Eric D. McManus". The signature is written in a cursive style with a long, sweeping flourish at the end.

Eric McManus
